Overview

"Shattered Shadows" is a 2D pixel-style shooting game that combines classic roguelike elements with a unique weapon system.

The linear narrative immerses players in a "strange journey" that includes opponents, levels, and ongoing battles tied to a compelling story.

My vision is a game that delivers satisfying combat and an engaging narrative.

Game Features

The game has a rich weapon system, each with its unique attributes. Players can purchase and upgrade them in the shop.

The pistol has unlimited ammo but limited damage, making it ideal for use in tight spaces. The auto gun boasts extremely high fire rate and massive damage, but its small magazine size makes loadout management critical. Players must carefully consider weapon selection and upgrades, as these decisions are crucial for future battles.

Level Design

Police Office

City Street

School Buildings

Police Officer: Introduce players the background, and player could buy different weapon and Health potion.

City Street: Introduce players to their first battle, guiding them through attacking, dodging bullets, and destroying objects to obtain items via the UI.

School Buildings: Introduce more enemies, obstacles to challenge dodging, and destructible objects dropping health packs, balancing intense combat with manageable difficulty.
